

Deactivation des menus déroulants

File: inc/display.function.php (577-578)

Function: commonHeader() (78)

Modification:

```
//echo "<li id='menu$i' onmouseover=\"javascript:menuAff('menu$i','menu');\" >";  
echo "<li id='menu$i'>";
```

File: front/setup.plugins.php (50)

Modification:

```
commonHeader($LANG["title"][2],$_SERVER['PHP_SELF'], "plugins");
```

Composition des dropdown Connections (no inventaire - nom)

The screenshot shows a web form for printer management. At the top, there's a section labeled 'Imprimante(s):' with a status 'Pas d'imprimante connectée'. Below this is a dropdown menu showing a list of printers. The printer 'I01931 - PRECR01_HPLJ5100TN' is highlighted. To the right of the dropdown is a 'Connecter' button and an IP address field with the value '153.109.5.238'. There is also a green text label 'er un port...' partially visible.

File: ajax/dropdownConnect.php (85-103)

Modification:

```
$query = "SELECT DISTINCT $table.ID as ID,$table.name as name,$table.serial as
serial, $table.otherserial as otherserial from $table $LEFTJOINCONNECT
$CONNECT_SEARCH $where order by name ASC";

$result = $DB->query($query);
echo "<select name=\"".$_POST['myname']."\" size='1'>";

if($_POST['searchText']!= $CFG_GLPI["ajax_wildcard"]&&$DB-
>numrows($result)==$NBMAX)
echo "<option value=\"0\">--\".$LANG['common'][11].\"--</option>";

echo "<option value=\"0\">-----</option>";
if ($DB->numrows($result)) {
    while ($data = $DB->fetch_array($result)) {
        /*$output = $data['name'];
        if (!empty($data['serial'])) $output.=" - ".$data['serial'];
        $ID = $data['ID'];
        if (empty($output)) $output="($ID)";*/
        $output = $data['otherserial'];
        if(!empty($data['name'])) { if(empty($output)) $output=$data['name'];
else $output.=" - ".$data['name']; }
        $ID = $data['ID'];
        if (empty($output)) $output="($ID)";
```
