\usepackage{setspace} in latex preamble

And now some checkboxes with \usepackage{wasysym} in preamble

Whats your answer?

$\stackrel{\mathrm{Y}}{\Box}\qquad\stackrel{\mathrm{N}}{\Box}$

and now we have some empty lines with ctrl-enter

With the new command

```
\newcommand\myYN{$\stackrel{\mathrm{Y}}{\Box}\qquad\stackrel{\mathrm{N}}{\Box}\quad$
```

you can write \myYN in Tex (red) and you'll get the two answer-boxes

$\stackrel{\mathrm{Y}}{\Box}\qquad\stackrel{\mathrm{N}}{\Box}\quad$ Mark the answer
